

Mastitis

Overview

- ... Is the information from the most recent test present?
- ... Is historical test information available?
- ... Has recorded clinical mastitis level increased recently (1 day Gap)?
- ... What is the testday estimated bulk tank SCC?
- ... Has the percent of infected cows increased over time for the entire herd?
- ... Are more cows becoming infected recently?

Somatic Cell Counts

- + Individual Cow SCC - Current Month
- + Individual Cow SCC - Change from Prior Month
- + SCC Over Time
- + Testday Estimated Bulk Tank SCCs

Fresh Cows

- + First Test Somatic Cell Counts

DryOff SCC and Change over Dry Period

- ... Does the pattern of SCC change (last 6 months) over the dry period indicate cows are becoming infected in the dry period (2x2)?
- ... Does the pattern of SCC change (last 6 months) over the dry period indicate cows are becoming infected in the dry period (Graph)?

Clinical Mastitis [In Development]

- + Patterns, levels, and risks for first and separate mastitis CASES and per COW
- + Recorded mastitis protocols for the last year by month [by protocol]
- + Subsequent mastitis-related actions recorded after clinical mastitis [no new action, repeated, change, unknown] (by month)

Culling for Mastitis

- + Culled cow analysis
- + Cows to be culled analysis

Cultures

- ... What organisms have been identified?
